

Youth Sector Report
October 14, 2018

- Pupil numbers and allocation report are not available at this time. Hopefully will be available for next meeting.
- **Parental workshop** will be held on **November 6 at PTU at 4:30pm**. This workshop is very helpful for future parents. This workshop will help them better understand their rights. If they are interested, they need to call the office to register or send an email to PTU.
- **Contract teachers** in the Youth Sector. A new system for signing of the contracts will be put in place; hopefully this will be done electronically this year. More to come.
- **New teachers**, a survey was sent out to 300 teachers, first year teachers and priority teachers with 5 years or less. Only 76 responded! The survey was to know if they are interested in workshops for New Teachers and to understand why they don't register. A few said that they did not want to leave the classroom and had too much work and many said not interested.
- A memo was sent this week for **exemption of LTD**. This only concerns teachers who are sure to retire in two years. LTD insurance is mandatory for all regular teachers and optional for contract teachers. Teachers are eligible for LTD benefits only after being on salary insurance for two years.
