

Report of the Intercultural Advisory Committee (IAC)
Meeting of March 18, 2021

Tiffany Callender, member of the LBPSB Task Force, will be presenting a workshop on white privilege. The proposed date is May 6, 2021. This workshop could be part of a multiphase plan, the first phase would target Head Office Administration, Elementary & High School Administrators, Continuing Education Administrators, as well as the parents' committee.

The anti-bias training programs were presented (3 different ones). This training would not target students, but staff and administrators first.

A Google Doc was created by one of the subcommittees to establish the definitions of terms used in various policies. This is to ensure consistency in the meaning of different terms (ex: racism, harassment, etc.)

Cultural projects were presented: 21 applications were submitted, 19 projects were accepted, 2 were refused. A total of approximately \$8475 will be distributed among the 19 approved projects.
